Use the guide in the order that solves your next LIVE problem.

Start here	Pages
Platform updates, eligibility and match setup	3-6
Room plan, score reading and gift reference	7-11
Power-ups and the Song Surge update	12-14
Leagues, Fan Club, analytics and rewards	15-18
Host scripts, moderation and promotion	19-21
Practice sessions and working pages	22-25
Sources and edition notes	26-27
Interactive practice quiz and answer key	28-29
Worked round, ranking screens and troubleshooting	30-32

Read the evidence label

Confirmed: public TikTok guidance. Observed: the supplied recording. Check your account: current panels determine availability and rules.

Tap, type, practice

Use the navigation buttons. Fill the white boxes in a PDF form reader and save a copy. Mark practice sessions and try the quiz; the answer key is separate and does not auto-score. You can also print these pages.

The October update board

Current information, with rollout limits made visible.

Confirmed: current match choices [1]

TikTok documents individual and team matches, with all-gift or specific-gift scoring. In a specific-gift match, only the selected gift contributes to the final score; other gifts and likes can still be sent.

Confirmed: newer tools for your pre-LIVE posts [10]

TikTok announced Comment Polls on September 3, 2026, with up to five choices. It also announced voice comments of up to 60 seconds for adults, rolling out globally over the following month. These are video-comment tools, not LIVE battle multipliers.

Shown in your supplied recording [V1]

The clip shows a power-up menu including Vault glove and a newly discussed singing item. The presenter calls it Song Search, but the displayed rule panel calls it song surge. This guide uses Song Surge and keeps that naming difference visible.

A useful tool from an earlier update [11]

Security Checkup was introduced in March 2025. TikTok highlighted it again in 2026. Review your authentication methods, devices and alerts before building a regular LIVE schedule.

Verified basics are not the same as newly released features. No official public Song Surge announcement was found in this review. Read the item rules in your own app before using it.
